Avaya · Cisco · Fortinet · APC · Huawei · HPE Aruba · Hikvision · Dell · Grandstream · ZKTeco

Company Profile 2026

Riyadh, Saudi Arabia · 5gtch.com

ABOUT US

A Saudi company that delivers the complete IT solution from one team

5G for Information Technology is a Saudi company based in Al Olaya, Riyadh. Since 2020 we have delivered more than 200 projects for government entities, hospitals, hotels, factories and companies.

We start with a site visit to understand your needs, then design the solution, supply original products with manufacturer warranty, install and configure them with our own engineers, and stay with you through technical support and maintenance contracts.

We also develop our own software for call centers, accounting and automatic Azan, so the systems we install work with the tools your business needs.

OUR VISION

To be the technology partner Saudi organizations trust first for their entire IT infrastructure.

OUR MISSION

Original, well-designed solutions, professional installation, clear quotations and real after-sales support.
